

EasyShield

DISPOSABLE 3-PLY MASK

Face masks are now an essential safety product to prevent the spread of COVID-19—and they are expected to remain essential for some time to come. Keep your shelves and warehouses stocked with the ASTM-rated disposable face masks your customers need now.

Wearing face masks may reduce the transmission of the SARS-CoV-2 coronavirus by up to 75%. Hospitals, schools and businesses need a consistent supply of high-quality, disposable face masks to operate safely during the pandemic. EasyShield can help you keep these essential items in stock so you can meet their needs.

Product Specifications:

- ASTM-rated Level 1 and Level 2 disposable face masks
- For protection against microorganisms and particulate material transfer
- Ear-loop style pleated procedural masks
- 3-ply polypropylene construction
- 175 mm (6 7/8") x 90.5 mm (3 1/2") with 6" ear loops
- 4" nose wire for better fit
- 50/box

We are your local supplier of ASTM-rated face masks. We are manufacturing masks right here in Columbus, Ohio, using U.S.-sourced materials. We also have additional manufacturing capacity with our sister companies in New York and Texas. Together, we are able to manufacture up to 15 million ASTM-rated face masks per month.

We launched EasyShield so we could ensure a consistent supply of ASTM-rated masks for our customers. With overseas supply chains stretched beyond their capacity, and quality from some overseas providers questionable, we believe that it is important to bring manufacturing for essential medical and safety supplies back home.
