

Advantages of Cast Films

Stretchability: Maximizes your equipment's stretch potential and provides excellent yield.

Cling: Layers of film cling to the package even at high stretch levels.

Load Stabilizing: Excellent memory keeps a strong grip on load.

Tear & Puncture Resistance: High tear resistance affords maximum security even around sharp package corner and edges.

Clarity: High degree of transparency for see-through packaging.

Low Noise Application: Quiet unwinding, great near telephones and offices.

It's a Wrap! Premium Quality Cast and Blown Packaging Films

When it comes to stretch wrap films for commercial and industrial use, you can count on HexFilm to have the best options for your needs. We have a broad selection of films for palletizing and bundling, from hand stretch film to machine stretch film and much more. Maximize your equipment's stretch potential with the superb cling and ultra high stretchability of our premium stretch film.

Advantages of Blown Films

Cling: Very high tack; film will cling well to product due to inside tack. Layers of film cling to the package even at high stretch levels.

Load Stabilizing: Excellent memory keeps a strong grip on load.

Tear & Puncture Resistant: Extremely high tear resistance affords maximum security even around sharp package corner and edges.
